I agree—let's get this done! I need to do some digging but I'll get back with you on it. Thanks for the reminder!

Subject: Aerojet Superfund Site: IOU (OU-7) Fate and Transport modeling

Hi Lynn, I'm looking at some year-end cleanup items and I wanted to touch base on the fate and transport modeling TM (TM3) for IOU. If you recall we had this TM prepared to address several previously identified issues and we were hoping to get consensus before the oversight contractor changed. Even though I know we all have things that are probably more important than this, I would like to try to get concurrence on finalizing the draft TM since U think we are very close and it makes sense to get it finalized before everyone forgets what this was about! I don't think it will be that much effort. Attached again are the RTCs. Can you please let me know if these proposed revisions are be adequate and we can have the TM finalized? Thanks!
